PROFILE SUMMARY

Motivated Computer Science student with a strong foundation in software development, backend engineering, and problem-solving. Skilled in Python, FastAPI, Flutter, SQL, and Git, with hands-on experience building academic and personal projects. Eager to contribute, learn from experienced engineers, and grow as a Software Development and Security Engineer.

TECHNICAL SKILLS

- HTML | JavaScript | CSS
 - Python | FastAPI
 - Flutter | Dart
- MySQL | PostgreSQL
 - Linux basic
 - Basic Networking concepts

EDUCATION

Bachelor of Engineering in Information Technology (BE IT)	<u>2022-Present</u>
Nepal College of Information Technology (NCIT), Balkumari, Lalitpur	
+2 in Computer Science (Physics)	<u>2019-2021</u>
Himalayan White House International College, Tinkune, Kathmandu	

PROJECTS

Cyber Surakshya Dashboard	<u>2026-Present</u>
Python • FastAPI • PostgreSQL • REST API • Git	
• Developed the backend for a cybersecurity monitoring dashboard. • Built FAST APIs to integrate frontend, AI modules, and network monitoring components. • Designed a scalable backend architecture for efficient data communication. • Collaborated with a team using Git to integrate and manage project features. • GitHub:cybersurakshya
